Part B for November 1916.

SUBJECT.

Opening of a road from Kengeri to Tavarekere.

G.O. No. 2793-4 dt. 6.11.16.
Directs that the road to connect Kengeri to Tavarekere may be constructed via Ramohalli at State expense and handed over to the District Board for maintenance and requests the Chief Engineer to submit for sanction of Government detailed estimate for the work within 2 months and make the necessary provision therefor in the P.W. Department Budget for 1917-18.

2/8/13

ABSTRACT.

It appears the Engineering department have carried on the survey for opening out a road from Kengeri to Javarekere via Konnaghatta.

(1)

The petitioners represent that this road, if opened, would be very far away from the villages of the Kengeri Hobli and therefore it would be of little advantage for traffic.

Pray therefore that, instead of opening out a road along the route surveyed already, a road may kindly be ordered to be opened out from Kengeri to Javarekere commencing either from the footpath at the 10th mile in the Mysore Road or from the cart track at the 12th mile in the same road via Punagamaranhalli, Ganapathihalli & Basavanapalya.

KCB.

D 1278

Petition from Revanna, Thimmiah and another on behalf the Villagers of Konnaghatta, Sulikere, Chikkaiahalli, Soune and other Villages of Kengeri Hobli, Bangalore Taluk addressed to the Deputy Commissioner

Date of petition - 7.8.1913

Received in Dy IV thro: Dy I on 21.8.1913.

Subject.

State that they have been praying for the past 18 or 20 years for the formation of a road from Konnaghatta, Sulikere through Kushnasagara, Bolenpalle and connecting Yelachagubbe that on their representation to Govt about 2 or 3 years ago, they were informed that the work could not be undertaken for want of funds in the Dy Bd that on their further praying to Govt they were informed that the records connected

thereunto would be sent
for & thereupon that the
D.P.W. have surveyed
the place under reference
and have estimated
a large amount for the
Road that they would
could be laid down at
a very little expense to
that under the circum-
stances they think that
early orders may be
issued for the opening
of the Road in question.

Offg. Chief Engineer of Mysore.

To

K.R.Srinivasiengar, Esq., M.A.,

Secretary to the Government of

His Highness the Maharaja of Mysore,

General and Revenue Departments.

Sir,

With reference to correspondence ending with your letter No.6129/L.B.44-12-14 of the 13th December 1913, I have the honour to forward herewith two alternative estimates amounting to Rs 14,516 and Rs 9,039 for opening a road from Kengeri to Thavarakere via Kommaghatta and Ramohalli respectively.

2. The latter route via Ramohally is recommended for sanction. It passes very close to the ridge requiring no costly tunnels or bridges and is preferable from an engineering point of view. The cost of construction of this line is also cheaper than the other one.

3. If the work is to be undertaken this year, funds required for it will have to be made available from the District Fund Budget.

I have the honour to be,

Sir,

Your most obedient servant,

Date of Receipt 31.8.15
Petn. Regr. No 65-17

To

Sir M. Visvesvaraya, K.C.I.E., LP 46-12-21

Dewan of Mysore,

BANGALORE.

Respected Sir,

We the undersigned beg to submit the following our humble prayer for your favourable consideration.

The question of opening a road from Kengeri to Thavarekere was discussed in the Taluk Board Meeting of Bangalore in your August presence also but no final orders directing the commencement of the work has been yet issued.

This appears to be the favourable time in our humble opinion to start the work. Both labour and materials can be found easily in this season. People are also very anxious to take the work either on contract or in any way that your honour may find it suitable to grant.

We therefore pray that this being a question pending for a very long time, orders may be issued early for the commencement of the work and thus afford convenience to the general public of these parts.

We beg to remain,

Respected Sir,

Your most obedient servants,

B. Narasingarao

alternative proposals for opening a road from Kengéri to Javarekere and requesting that the views of the District Board may be submitted in the matter, I have the honor to state that Mr. B. K Garudachar Inamdar of Krishnasagara, Kengeri Hobli petitioned this office on the 17th February 1914 and requested that the road in question might be opened from the 10th mile 3rd furlong. The matter was discussed at the meeting held on the 21st February 1914 when it was resolved that the subject be deferred to next meeting, owing to the non submission of the report from Mr. B. Usman Khan Saheb, the Vice-President of Bangalore Taluk Board in the matter and that a 3rd estimate

for opening the road in question from
10th mile 3rd furlong via Garudacharpalya
being also called for from the Executive
Engineer. In accordance with the said
resolution and as per requisition from
the said Vice President of the Taluk Board
the Executive Engineer was requested in
his Office No R5239 dated 3.3.1914 that the
3rd estimate might be sent to this
Office The Executive Engineeri
forwarded the 3rd estimate with his
No: 105 dated 18/5/1914. On its receipt the
estimate was also forwarded to the
Amildar of Bangalore Taluk with
No 1820 dated 23.5.1914 to be sent to the
Vice President and to submit his
report on the 30th May 1915.

The Amildar Submitted the

report of Mr B Usman Khan Saheb on
8.12.1914 discussing fully the 3 estimates
and suggesting that the route passing
through Bhimanakuppa, Chekkalur
and Kamohalli for Rs 9042 might be
taken up (Report is herewith submitted)

After its receipt, the subject was
again discussed at the meeting held on
the 18th January 1915 when it was resolved
that the estimates be returned to the
Executive Engineer for revising as per
this Office yadi No: 101 dated 24.6.1914
enclosed in the file.

The Executive Engineer was therefore
requested in this Office No 53 dated $\frac{23}{22}\cdot\frac{1}{2}\cdot 1915$
to send up the estimate as resolved by

the Board.

In his no: 383 dated 16/15·12·11 the Executive Engineer replied discussing fully the use and the cost of making roads as regards the three estimates and suggested that the road may be formed via Ramohalli at a cost of Rs 9042 that being cheaper and more useful than the other two. The Subject was discussed at some length at the meeting held on the 17th January 1916 and owing to a difference of opinion between some of the members the same was put to vote when 15 members voted for the road proposed by the Executive Engineer and one voted against, the remaining members not voting and it was therefore resolved that the alignment via Ramahalli may be taken at a cost of Rs 9042/-

15 (Fifteen)

The file connected with

this is herewith submitted.

I have the honor to be,

Sir,

Your most Obedient Servant,

K Chandy

President,

District Board,

Alignment of a railway feeder from

Kengeri to Tavarekere.

The necessity for a road is undisputed., Traffic and other local conditions require this communication. There is a proposal to connect Kengeri and Banneerghatta through Kaglipur and also to connect Sondekoppa and Nelamangala with Tavarekere.

Two alignments are proposed:-

(i) From Kengeri Railway station to Kommaghatta, in a north-westerly direction and from thence due west skirting Sulekere, Krishnasagara and thence proceeding due north via Elichikoppa and joining the Bangalore-Magadi road at about the 13th mile;

(ii) From the 12th mile 2nd furlong of the Mysore Road i.e. 3 miles from the Kengeri Railway station and along existing cart-track up to Ramohalli and from thence proceeding north-west via Punugumaranahalli Ganapathihalli and from thence in a northerly -- direction almost in a straight line to the 14th mile of the Bangalore-Magadi Road.

Looking at the topo sheets, it would be apparent that a road via Kommaghatta on to Margondahalli and from thence to Tavarekere would not only materially lessen the length of the road but go to a great way to lessen the recurring cost of maintenance.

Against the first alignment via Kommaghatta:-

1. Necessitating building of culverts.
2. Stony nature of the country.

For .

Alignment of a railway feeder from Kengeri to Tavarekere.

The necessity for a road is undisputed. Traffic and other local conditions require this communication. There is a proposal to connect Kengeri and Bangalore through Kaglipur and also to connect Sondekoppa and Ullagallu with Tavarekere.

Two alignments are proposed:-

(i) From Kengeri Railway station to Kommaghatta, in a north-westerly direction and from thence due west skirting Tulekere, Kuibhasandra and thence proceeding the north via Pillanikoppa and joining the Bangalore-Kanakpura road at about the 13th mile;

(ii) From the 12th mile and furlong of the Hyderabad road i.e. 3 miles from the Kengeri Railway station and along existing cart-track up to Jakkasandra and from thence proceeding north-west via Punnamangala, Kempathalli and from thence in a northerly direction almost in a straight line to the 14th mile of the Bangalore-Kanakpura Road.

Regarding the first alignment via Konna Hatta: it would be apparent that a road via Konna Hatta on to Tavarekere would not only materially lessen the length of the road but also to a great way lessen the construction cost of maintenance.

For

1. Shorter distance being only 7½ miles.
2. Affording facilities for export of grain and garden produce to the markets of Bangalore and Tavarekere.
3. Opening out new tracts for garden owners.

Against the 2nd alignment.

Longer distance three miles on the Bangalore-Mysore Road and 9 miles on the Ramohalli Road.

For.

Less number of culverts.

On the 5th of May last year. I walked with Mr.D'Cruz the Executive Engineer, Mr.Subbarao, the Assistant Engineer, Mr. Syed Yakub the Amildar of Bangalore Taluk -- starting from the Kengeri Railway station to Margondahal and thence to Ramohalli and came back to the Railway station. The Executive Engineer personally told me that the road via Kommaghatta would be useful. But he does not seem to have sent in the report as I did not see the same in the District Board meeting. The present Executive Engineer when asked for a report by the President of the District Board has based his report on a report of Mr.Oosman Khan the Vice-President of the Taluk Board and also a member of the District Board who was deputed by the President of the District Board and has favoured the Ramohally alignment and is of opinion that the road via Ramohally passes over country which does not require culverts.

As no revenue authorities have seen this road and written any report this being a local fund matter, nor have the P.W.D. Officers seen both the alignments and sent in a report I beg that the Revenue and the Public Works Department Officers see the roads, with a view to

Director dissolve Meeting only 7½ mins.

According Local Inspector report of Train Proceedings no one married at Barnsley and Lovepeace Opening out new tracts for Garden Country.

Against the Road Alignment.

Longer distance three miles on the Barnsley-Peggs Road and 4 miles on the Barnsley-Lovepeace Road.

For.

Less number of Culverts

[illegible] the Sum of Two Years. I waited with Mr. McCrea the Executive Engineer, Mr. Wilson, the Assistant Engineer, Mr. Lloyd Tabb the Valdez of Barnsley Talk about time from the General Railway station to Barnsdale and time thence to Barnsdale and carry back to the Railway station. The Executive Engineer personally told me that the road via Lovepeace would be useful. But he also not agree to have cost in Proposal as I did not see the same in the District Board meeting. The Proposal Executive Engineer when ordered to report by the President of the District Board had based his report on a report of the Chairman then the Vice-President or the Talak Board and also a member of the District Board who was deputed by the Assistant of the District Board and the Executive Engineer and is of opinion that Barnsdale Road chiefly although and is of opinion that Barnsdale Road Culverts.

[illegible] has no revenue authorities have been recommended [illegible] Lovepeace Road [illegible] Lovepeace Road, with a view to [illegible] Report that it is Government and the Taluk Board the Executive Engineer [illegible] Lovepeace Road [illegible] Lovepeace Road [illegible] Lovepeace Road

to facilitate passenger traffic and trade between Banneerghatta and Nelamangala.

The recommendation for the Ramohalli road has come up from the District Board to Government.

I humbly beg that the ~~xxxxxx~~ sanction of the same be kept in abeyance till the report of the Revenue and P.W.D.Officers come up.

I intend bringing the subject before the District Board of Bangalore three months from the last meeting, i.e. January 1916.

As the question is very important, I beg you will be pleased to depute the officers to investigate at an -- early date. I shall accompany the officers and explain.

Bangalore City
